

AVIRAL SINGH

B.Tech CSE (Data Science) Student | Aspiring Data Scientist / Data Analyst

Bengaluru, India | Python | SQL | Data Analysis | Machine Learning
GitHub: github.com/aviralsingh06 | LinkedIn: [linkedin.com/in/aviralsingh06](https://www.linkedin.com/in/aviralsingh06)

PROFESSIONAL SUMMARY

B.Tech CSE (Data Science) student with hands-on experience building data-driven applications, AI-assisted career tools, analytics dashboards, and machine-learning workflows. Comfortable with Python, SQL, PostgreSQL, data analysis, visualization, REST APIs, and modern web development. Seeking entry-level Data Analyst, Data Science, or Machine Learning opportunities.

TECHNICAL SKILLS

Programming	Python, JavaScript, TypeScript, SQL
Data & Analytics	Pandas, NumPy, Data Cleaning, Exploratory Data Analysis, Statistical Analysis, Data Visualization
Machine Learning	Scikit-learn, Regression, Classification, Clustering, K-Means, KNN, Naive Bayes, Random Forest, PCA
AI / NLP	NLP, Resume Parsing, Skill Extraction, Text Matching, AI-assisted Recommendations
Databases	PostgreSQL, MySQL, SQL Queries, Database Design
Web / Backend	FastAPI, REST APIs, React, Next.js, Tailwind CSS, Node.js
Tools	Git, GitHub, VS Code, Streamlit, Plotly, Chart.js

PROJECTS

Data Science Job Market Intelligence Platform

Tech: Python, FastAPI, PostgreSQL, React, Next.js, TypeScript, Tailwind CSS, Plotly

- Built a job-market intelligence platform for analyzing job demand, salaries, hiring locations, work models, and in-demand skills.
- Implemented resume parsing, skill extraction, resume-to-job matching, ATS scoring, career recommendations, and market analytics modules.
- Developed analytics services for salary, company, location, skills, and job-trend analysis with API-driven dashboard visualizations.

SkillMap AI

Tech: Python, Streamlit, PostgreSQL, NLP, Machine Learning

- Developed an AI-assisted career platform that extracts skills from resumes and compares them with target roles.
- Implemented skill-gap analysis, learning recommendations, course recommendations, career roadmaps, and resume scoring workflows.

Smart Attendance System

Tech: Python / JavaScript, React, Node.js, Firebase / MongoDB

- Designed a smart attendance workflow with a web interface, backend services, database integration, and student attendance tracking.
- Focused on reducing manual attendance work through digital record management and automated workflows.

AI Smart Mirror

Tech: Arduino, Python/Java, Sensors, Web Dashboard

- Designed a student-focused smart mirror concept combining sensor data, a mobile edge display, and a web dashboard.
- Integrated PIR and DHT11 sensor concepts for environmental and interaction monitoring.

EDUCATION

B.Tech, Computer Science & Engineering (Data Science) — Sapthagiri NPS University, Bengaluru

Expected graduation: 2028 | Relevant areas: Data Science, Machine Learning, Python, SQL, Statistics, Web Development

RELEVANT COURSEWORK

Machine Learning • Data Science • Statistics • Database Management Systems • R Programming • Python Programming • Web Development • Software Engineering • Android Development • IoT

CERTIFICATIONS / LEARNING

Continuous learning in Python, SQL, Data Analytics, Machine Learning, NLP, Data Visualization, Git/GitHub, REST API development, and modern full-stack development.

CAREER TARGET

Primary: Data Analyst / Junior Data Scientist **Secondary:** Machine Learning Engineer / AI Engineer

Test resume for the Data Science Job Market Intelligence Platform. This document intentionally contains a broad set of technical skills, project experience, target roles, and education details to exercise resume parsing, skill extraction, ATS scoring, matching, and recommendation features.
